

IN THE CLAIMS:

Sub F11

Claims 1-16 (Withdrawn)

Claim 17. (Previously cancelled)

2

Claim 18. (Previously amended) A satellite ready building as recited in claim 21 wherein said connector comprises a universal connector.

3

Claim 19. (Original) A satellite ready building as recited in claim 18 wherein said universal connector comprises a phone jack, a cable TV jack, and a satellite jack.

a1

4

Claim 20. (Original) A satellite ready building as recited in claim 19 wherein said universal connector comprises a LAN jack.

3

1

Claim 21. (Previously Amended) A satellite ready building comprising:

a plurality of studs;

satellite wires positioned adjacent to said studs having a first termination and a second termination, said first termination positioned outside the building;

a connector coupled to said second termination of said satellite wire;

a drywall layer coupled to said studs to substantially enclose the satellite wires therein; and

a radome enclosing said first termination.

5
Claim 22. (Original) A satellite ready building as recited in claim 21 further comprising a satellite antenna positioned within said radome.

6
Claim 23. (Original) A satellite ready building as recited in claim 22 where radome is low-profile sized to contain said satellite antenna therein.

7
Claim 24. (Original) A satellite ready building as recited in claim 22 wherein said radome has a color to substantially match a roof color.

8
Claim 25. (Original) A satellite ready building as recited in claim 22 wherein said antenna comprises a flat antenna.

9
Claim 26. (Original) A satellite ready building as recited in claim 22 further comprising a remote control for positioning said antenna.

10
Claim 27. (Original) A satellite ready building as recited in claim 22 wherein said antenna comprises a phase array antenna.

11
Claim 28. (Original) A satellite ready building as recited in claim 22 wherein said antenna comprises a variable-inclination-continuous-transverse-stub.

12
Claim 29. (Currently Amended) A multiple unit building comprising:
satellite wires having a first termination, a second termination, a third termination and a fourth termination, said first termination and said third termination positioned outside the building;

a first connector coupled to said second termination;

a second connector coupled to said fourth termination; and

a first radome enclosing said first termination; and

a second radome enclosing said third termination.

cont. F1
13
Claim 30. (Currently Amended) A multiple-unit building as recited in claim 29 wherein said second termination is positioned in a first unit of the multiple unit building and said fourth termination is positioned in a second unit of the multiple unit building.

cont. C1
14
Claim 31. (Currently Amended) A multiple-unit building as recited in claim 29 wherein the first radome and the second radome are coextensive.

15
Claim 32. (Currently Amended) A multiple-unit building as recited in claim 29 wherein said first and second connector comprise a universal connector.

16
Claim 33. (Currently Amended) A multiple-unit building as recited in claim 32 wherein said universal connector comprises a phone jack, a cable TV jack, and a satellite TV jack.

17
Claim 34. (Currently Amended) A multiple-unit building as recited in claim 32 wherein said universal connector comprises a LAN jack.

cont. F1

¹⁸ Claim ¹²35. (Currently Amended) A multiple-unit building as recited in claim ¹²32 further comprising a first satellite antenna and a second satellite antenna positioned respectively within said first radome and said second radome.

cont. E1

¹⁹ Claim ¹⁸36. (Currently Amended) A multiple-unit building as recited in claim ¹⁸35 wherein said first satellite antenna and said second satellite antenna comprise a flat antenna.

²⁰ Claim ¹⁸37. (Currently Amended) A multiple-unit building as recited in claim ¹⁸35 wherein said first satellite antenna and said second satellite antenna comprise a phase array antenna.

²¹ Claim ¹⁸38. (Currently Amended) A multiple-unit building as recited in claim ¹⁸35 wherein said first satellite antenna and said second satellite antenna comprise a variable-inclination-continuous-transverse-stub.

²² Claim ¹²39. (Currently Amended) A multiple-unit building as recited in claim ¹²29 wherein said first radome and said second radome are low-profile.

²³ Claim ¹²40. (Currently Amended) A multiple-unit building as recited in claim ¹²29 wherein said first radome and said second radome have a color that substantially matches a roof color.

²⁴
Claim ~~41~~ (Currently Amended) A multiple-unit building as recited
¹²
in claim ~~29~~ wherein said first radome and said second radome are contiguous with a
mounting surface.

²⁵
Claim ~~42~~ (Currently Amended) A multiple-unit building as recited
²⁴
in claim ~~41~~ wherein the mounting surface is a roof.

²⁶
Claim ~~43~~ (Currently Amended) A multiple-unit building as recited in
²⁴
claim ~~41~~ wherein the mounting surface is siding.

²⁷
Claim ~~44~~ (Previously Added) A method of forming a multiple unit
satellite ready building comprising the steps of:

installing satellite wire within walls of the building;

installing a radome on the building;

terminating the satellite wire to form a first termination outside the
building within the radome;

terminating the satellite wire in a first unit of the building to form a
second termination;

terminating the satellite wire to form a third termination outside the
building within the radome;

terminating the satellite wire in a second unit of the building to form a
fourth termination; and

coupling the satellite wires to satellite jacks.

²⁹
Claim ~~45~~. (Previously Added) A method as recited in claim ~~44~~²⁷ wherein terminating the satellite wire to form a first termination outside the building within the radome and terminating the satellite wire to form a third termination outside the building within the radome comprises:

terminating the satellite wire to form the first termination outside the building within a first radome; and

terminating the satellite wire to form the third termination outside the building within a second radome.

²⁹
Claim ~~46~~. (Previously Added) A method as recited in claim ~~44~~²⁷ wherein the radome is low-profile sized to contain a satellite antenna therein and is colored to match the surrounding roof material.

³⁰
Claim ~~47~~. (Previously Added) A method as recited in claim ~~44~~²⁷ wherein the radome has a color to substantially match a roof color.

³¹
Claim ~~48~~. (Previously Added) A method as recited in claim ~~44~~²⁷ further comprising the step of installing a satellite antenna in the radome and coupling the satellite wire to the antenna.

³²
Claim ~~49~~. (Previously Added) A method as recited in claim ~~48~~³¹ wherein the satellite antenna is a low profile antenna.

³³
Claim ~~50~~. (Previously Added) A method as recited in claim ~~44~~²⁷ wherein said step of terminating the satellite wire to form a first termination comprises the step of terminating the satellite wire adjacent to a roof of the building.

³⁴
Claim ~~51~~. (Previously Added) A method as recited in claim ~~44~~²⁷ wherein said step of terminating the satellite wire to form a first termination comprises the step of terminating the satellite wire adjacent to a siding of the building.

³⁵
Claim ~~52~~. (Previously Added) A method as recited in claim ~~44~~²⁷ further comprising the step of coupling a television to said jack.

³⁶
Claim ~~53~~. (Previously Added) A method as recited in claim ~~44~~²⁷ further comprising the step of coupling a personal computer to said jack.

³⁷
Claim ~~54~~. (Previously Added) A method as recited in claim ~~44~~²⁷ wherein the step of installing the radome comprises installing the radome contiguous with a surface of the building.

³⁸
Claim ~~55~~. (Previously Added) A method as recited in claim ~~54~~³⁷ wherein the surface comprises a roof.

³⁹
Claim ~~56~~. (Previously Added) A method as recited in claim ~~54~~³⁷ wherein the surface comprises a side.

40
Claim 57. (Previously Added) A multiple unit satellite ready building comprising:

satellite wires having a first termination, a second termination a third termination and a fourth termination, said first termination and said third termination positioned outside the building, said satellite wires for distributing satellite signals therethrough;

cont. F1
a first connector coupled to said second termination within a first unit of the building;

cont. C1
a second connector coupled to said fourth termination within a second unit of the building; and

a first radome disposed on the building contiguously with a surface, said first radome enclosing said first termination; and

a second radome disposed on the building contiguously with a surface, said second radome enclosing said third termination.

41
Claim 58. (Currently Amended) A multiple-unit satellite ready building as recited in claim 57, comprising wherein the satellite signals comprise computer signals and television signals.

42
Claim 59. (Currently Amended) A multiple-unit satellite ready building as recited in claim 57, wherein said first and second connector comprise a universal connector.

43
Claim 60. (Currently Amended) A multiple-unit satellite ready building
as recited in claim 59⁴² wherein said universal connector comprises a phone jack, a cable
TV jack, and a satellite TV jack.

44
Claim 61. (Currently Amended) A multiple-unit satellite ready building
as recited in claim 59⁴² wherein said universal connector comprises a LAN jack.

45
Claim 62. (Currently Amended) A multiple-unit satellite ready building
as recited in claim 57⁴⁰ further comprising a first satellite antenna and a second satellite
antenna positioned respectively within said first radome and said second radome.

46
Claim 63. (Currently Amended) A multiple-unit satellite ready building
as recited in claim 62⁴⁵ wherein said first satellite antenna and said second satellite
antenna comprise a flat antenna.

47
Claim 64. (Currently Amended) A multiple-unit satellite ready building
as recited in claim 62⁴⁵ wherein said first satellite antenna and said second satellite
antenna comprise a phase array antenna.

48
Claim 65. (Currently Amended) A multiple-unit satellite ready building
as recited in claim 62⁴⁵ wherein said first satellite antenna and said second satellite
antenna comprise a variable-inclination-continuous-transverse-stub.

49
40
Claim 66. (Currently Amended) A multiple-unit satellite ready building
as recited in claim 57 wherein said first radome and said second radome have a color to
substantially match a surface color.
